

# BIMINI LED

## 6200 SERIES

CABIN  
DENMARK

This series of lights is designed to give cockpit light under the bimini.

20 LEDs give the same warm white light as a 20W halogen bulb. An integrated LED driver regulates voltage fluctuation and guaranties steady light output.

Dimmable with PWM dimmer, se page 10.10

Power consumption 12V - 2,5W, 24V - 3W.  
The lifetime of the LEDs is more than 50.000h.

The lights are made of anodized aluminum.  
Curved back fit tubes of 25-30mm diameter.

Dimension 250 x 20 x 10mm.  
Fixing: M4 screws AISI 316.  
6000mm cable, other length on request.  
IP 65

BIMINI LED 6239WW
